MSME Design Clinic Scheme Guidelines for Product Innovation

Issuing Authority: Ministry of Micro, Small and Medium Enterprises, Govt. of India

1. Objective and Design Intervention

The MSME Design Clinic Scheme supports micro and small enterprises in integrating professional industrial design, ergonomics, packaging, and aesthetic innovation into their product lines to transition from low-margin contract manufacturing to high-value branded goods.

2. Financial Assistance for Design Projects

The scheme provides:

• Professional Design Projects: Financial assistance up to Rs. 40 Lakhs per approved design project, with 75% subsidized by the government for Micro enterprises and 60% for Small and Medium units.

• Student Design Projects: Grant of up to Rs. 2.5 Lakhs (75% government share) for student design projects executed in collaboration with design institutes like NID and IITs.

3. Design Seminars and Awareness Workshops

100% financial assistance up to Rs. 60,000 per seminar is provided to MSME industry associations to organize design awareness programs and design clinics across industrial clusters.

4. Online Application via Champions Portal

MSMEs apply online at champions.gov.in with a design brief and cost quotation from an accredited design agency. Project milestones trigger digital reimbursement tranches.
